

# ACT NOW!

## or your family may have less convenient access to vaccines & services at pharmacies after May 11

During COVID-19, the government relied on Minnesota pharmacies as a vital partner, ensuring we all had access to disease-preventing and life-saving vaccinations. Minnesota pharmacies answered the call and administered millions of vaccinations, including more than 4 million COVID doses. Most Minnesotans live within five miles of a pharmacy. Tell your legislators to continue access to safe, affordable vaccines.

**If Minnesota lawmakers DON'T act before May 11, your family may not be able to get all your needed vaccines from your pharmacy.\***

Scan the QR code or visit [www.MyPharmacyServesMN.org](http://www.MyPharmacyServesMN.org) NOW to tell your state legislators to support legislation (HF 1197/SF 1176) to continue access to affordable vaccines at pharmacies.

**Access to vaccinations at Minnesota pharmacies – safe –  
affordable – fair – disease-preventing -- life-saving**

**[www.MyPharmacyServesMN.org](http://www.MyPharmacyServesMN.org)**

\*Pharmacy authorization to provide FDA-approved and Advisory Committee on Immunization Practices-recommended vaccines under the federal PREP Act expires on or soon after May 11, 2023. Minnesota must act now!

Prepared & paid for by the My Pharmacy Serves MN coalition, [www.MyPharmacyServesMN.org](http://www.MyPharmacyServesMN.org).
